Cristóbal Millán Cabezas

I develop cross-platform applications. I'm an AI expert and I specialise in spec-driven development (SDD).

Córdoba 654 640 611 cristobal4899@gmail.com github.com/cris4899

Profile

I'm a second-year Cross-Platform Application Development (DAM) student. I design, build and ship complete products, from the interface to the database and deployment. I work daily with Claude Code, skills management, MCP servers, prompt engineering and SDD, and I help build applications fast with AI.

Projects

Papeo 2026 · Expo, Next.js, Supabase, TypeScript
I built the mobile app, admin dashboard and landing page in a monorepo, working spec-first with end-to-end tests. papeo-landing.vercel.app

Vecinaria 2026 · React, Vite, Expo, Supabase, Tailwind
I created a property management platform for professional firms and self-managed communities, with a web app and an iOS and Android app. I tested the database with pgTAP. vecinaria-landing.vercel.app

JaquecApp 2026 · PWA, Vite, JavaScript, Firebase
I developed a wellbeing PWA with a planner, cycle and migraine tracking, habit analysis and a PDF report for doctors. jaquecapp.netlify.app

WebEstudio 2026 · JavaScript, Node.js, C#, .NET MAUI
I made Aula de Interfaces, a study website with 18 lessons, 85 self-test questions and 13 downloadable MAUI projects. It has no third-party dependencies. webestudio-three.vercel.app

Education

Higher Vocational Diploma in Cross-Platform Application Development (DAM)
IES Luis Carrillo de Sotomayor · since 2025 (2nd year)

Andalucía Game Jam: Desarrollo de Serious Games Educativos
8-hour training delivered by Eonesia · June 2026

AI course
Junta de Andalucía · planned for 2027

Skills

Languages: Java, Kotlin, JavaScript, TypeScript, C#, SQL
Development: React, Next.js, Expo, .NET MAUI, Supabase, Firebase, ERPs
AI: Claude Code, skills management, MCP servers, prompt engineering, SDD

Languages

My English is advanced (not certified) and my Spanish is native.
